

Renaissance Music: Lesson 17
3rd Grade Music

Name: _____

The organ being listened to today was built in 1610 in Denmark. This instrument is one of only a few that have an authentic Renaissance sound.

1. What is the body of water that lays around the castle called?
2. What surprised you about this organ? What weren't you surprised about?
3. What is the man doing with the ropes? Why don't you see this in churches today?
4. Why is the organist playing on two different keyboards?

The Renaissance site from Iowa State shows an array of different Renaissance instruments. Please fill in the below chart as we look at these in class.
